

Sector: Public Sector – Youth Centre

Case Study: Bath and North East Somerset Council

Challenges

This run down youth centre in Bath presented a unique set of challenges. Not least of which the major external works package required to make the comprehensive alterations to its unusual pre-cast concrete structure frame. The project itself was a multi agency initiative funded by BANES Council with grants from the Myplace organization and National Lottery, all involved from feasibility to construction. The centre would be used by the entire community and feature a sensory room, a café, sporting, musical and support service facilities.

Results

RSPM take a great deal of care to understand the end user and take a collaborative, cooperative and approachable attitude to ensure the highest standards are met and BANES has been no exception. The site has been transformed and now provides a myriad of opportunities for local people in what is now a striking building.
